PROJECTS / OPEN-SOURCE

Ecommerce Product Website | Link

HTML, CSS, JavaScript, PHP, MySQL, Bootstrap

Developed a comprehensive ecommerce experience website featuring a user-friendly frontend and robust backend. The platform utilizes Bootstrap for responsive design, ensuring a seamless experience across devices. Users can browse and view products, create accounts, log in, and make secure purchases. The backend, managed with PHP and MySQL, handles all product listings and user data.

E-learn master | Link

HTML, CSS, JavaScript

E-learn Master is a web-based educational platform that delivers a rich and interactive learning experience. Developed with HTML, CSS, and JavaScript, this application features an intuitive interface, allowing users to easily explore and engage with a diverse selection of courses and educational materials.
